

COLDFUSION 11 UPDATE 5

ISSUES FIXED

**indicates bugs fixed in the refreshed build

Bug ID	Title	Product Area
3845476	Unhandled error in CFAdmin	Administrator
3845479	Error in AdminAPI	Administrator
3851449	Error when deploying a ColdFusion application as J2EE Archive on JBOSS Application server (7.1.1)	Administrator
3855034	CF System Probe: unable to set the file overwrite check option to false.	Administrator
3862744	Issue while creating instances of ColdFusion using startInstance api	Administrator
3866344	Install CF 11 on Mac, and click updates under Server Update in CF Administrator	Administrator
**3947096	[atuttle] CF11 Update 5 (beta1) breaks "View Undelivered Mail" feature of CF Administrator	Administrator
3037144	Bug 74756:(Watson Migration Closure)Conditions:Empty input in CFINPUT, causes the CFLAYAOUTAREA to duplicate itself.	AJAX
3737524	the tool-tip does not appear on the first click.	AJAX
3798028	CFGRID with bound field doesn't reset to page 1 when bind field is updated	AJAX
3852070	Incorrect Serialization of dates	AJAX
3352745	properties with default values not accessible outside init function	CFComponent
3520983	validateparams throws regex parse error when regex contains comma	CFComponent
3699565	exchange 2010: unable to set the task Status to "Completed" with cfexchangetask action="modify".	CFExchange

Bug ID	Title	Product Area
3705370	cfexchangecontact with cfexchangefilter	CFExchange
3756964	exchange 2010: The organizer is not correctly set in cfexchangecalendar Event struct.	CFExchange
3761853	(Exchange 2010/2013) cfexchangetask action="modify" : setting the percentcompleted to 100 or DateCompleted to a past date, does not change the task status to Completed.	CFExchange
3761602	cfinput onChange event not firering	CFForm
3863477	[ANeff] Bug for: cfform vs form wrt default action at SES URL	CFForm
3797316	CFChartSeries Attribute "Colorlist" No Longer Works	Charting/Graphing
3848704	CFChart : provide value to legend attribute when showlegend="no" shows legend box	Charting/Graphing
3859367	\$VALUE\$, \$ITEMLABEL\$ and \$SERIESLABEL\$ for attribute URL of CFCHART only work with PNG/JPG and not FLASH/HTML	Charting/Graphing
3859368	With ENABLECFOUTPUTONLY turned on, CFCHART in Flash or HTML format do not render, only PNG/JPG do	Charting/Graphing
3859531	CFChart style attribute errors when passing json string	Charting/Graphing
3860808	Flash/HTML format CFCHARTs will generate unexpected URLs if attribute "URL" is set to "" or " "	Charting/Graphing
3554224	Amazon S3 Support with DirectoryList	ColdFusion Services
3634391	null pointer exception thrown every now and then	Core Runtime
3801082	Email validation using IsValid	Core Runtime
3849152	[ANeff] Bug for: CF sessions vs J2EE sessions (session loss) when using urlSessionFormat()	Core Runtime
3916188	Updater 15 changes/breaks behavior of deleting cookie.cfid/cftoken	Core Runtime

Bug ID	Title	Product Area
3512854	Error connecting to Oracle servers using Oracle Advanced Security	Database
3818587	Incorrect cast when iterating over an array of elements containing values from a query object.	Database
3849591	Issue while creating application-specific data source using lowercase alphabet only in format.	Database
3851961	[ANeff] Bug for: abort throws exception within iteration member function UDFs	Debugging
3158250	CFSPREADSHEET.spreadSheetFormatRow not re-setting bold and italic to no/false	Document Management
3821299	Proxy Attributes on CFDocument Tag are ignored...	Document Management
3842778	spreadsheet functions: numeric boolean values in formatting attributes are not interpreted correctly.	Document Management
3846110	cfhtmltopdfitem errors when inside CFLOOP	Document Management
3858416	Error occurred while generating PDF using cfhtmltopdf	Document Management
3923995	spreadsheetAddRows: When passing arrays (without passing the row/col attribs) the order of the array elements is not correctly written in the spreadsheet.	Document Management
3039708	Bug 79498:(Watson Migration Closure)When disabling VFS via CF admin ram is not released back to server	File Management
3043111	Bug 85895:(Watson Migration Closure)Content-Type is not set appropriately when writing to S3	File Management
3043657	Bug 86750:-(Watson Migration Closure)Cannot merge multiple PDFs from ram:// to ram://	File Management
3114274	Bug 87273:-(Watson Migration Closure)file uploaded by CFFILE action "upload" inherits ColdFusion Temp Directory permission, instead of upload destination directory permission CFFILE action	File Management

Bug ID	Title	Product Area
	"write" doesn't have this problem	
3148657	fileUpload() not ignoring empty string for filefield	File Management
3226380	StoreGetMetadata - Amazon S3 Metadata Caching Problem / Requires Restart (CF 9.0.1 and CF10)	File Management
3695879	The accept attribute of cfile doesn't work with Microsoft Word DOCX files	File Management
3739708	Coldfusion 10 / Windows 2012 R2 server and large file upload into a network directory	File Management
3829498	FileOpen/fileWrite functions fails when filename contains a % character	File Management
3848011	[ANeff] Bug for: does not recurse	File Management
**3945665	directoryList("s3://key:secret@bucket", false, "query", "", "name asc", "file") throws NPE.	File Management
3720764	Error message with cfindex not detailed enough.	General Server
3818732	setDomainCookies="true" does not set domain cookies in websites like... http://example.com	General Server
3320414	Un-installer unable to remove Hotfix from all the Instances onto which it was applied	Hot Fix Installer
3358792	WSConfig does not back up all the config files it changes	Installation/Config
3742083	CGI.PATH_INFO not null when default documents are served on IIS	Installation/Config
3758070	CGI.HTTP_URL Missing when using IIS	Installation/Config
3816563	CF requests return Error 400 after a post request has successfully completed	Installation/Config
3853490	error when using the cfcompile.bat	Installation/Config
3923565	J2EE Session Vars Break ColdFusion on Win 2012 EC2	Installation/Config

Bug ID	Title	Product Area
3776450	reloadOnChange causes issue with classPath	Java Integration
3842365	Error when instantiation a Java object is misleading	Java Integration
3863517	[Escalation] Generated EAR through J2EE Archive giving error on accessing settings summary and scheduled tasks	JEE Deployment
3041684	Bug 83394:(Watson Migration Closure)The "includeEmptyValues" of listRest() appears not to work	Language
3700163	The function getHttpRequestData() fails when form posted with encType="multipart/form-data"	Language
3750733	listFilter() doesn't correctly handle multi-char delimiters	Language
3765527	for loop var not available in struct literal for arrayAppend if not wrapped in { }	Language
3774074	Mixed-in functions cannot access SUPER "scope" on first hit to a function	Language
3791747	each() does not support ordered arguments	Language
3792283	Calling Randomize() with the SHA1PRNG does not create "repeatable number patterns".	Language
3810965	arrayFilter() /filter() callback needs to be passed element, index and array	Language
3815793	structcopy doesn't return a copy	Language
3818767	Serialization of query does not respect case	Language
3836702	queryExecute leaks to the variables scope, reports incorrect value	Language
3836820	queryExecute in a thread is broken	Language
3840570	null coalescing operator sometimes incorrectly returns the second operand	Language
3842326	encrypt() key passed as a string vs. as a variable renders a different result	Language

Bug ID	Title	Product Area
3845979	form scope can't be emptied by calling structClear	Language
3851982	[ANeff] Bug for: structFilter/struct.filter() UDF arguments missing struct	Language
3852305	[ANeff] Bug for: member function errors say "The function accepts 1 parameters."	Language
3854303	Bug for: isValid() inconsistent handling of NULL for eurodate and USdate	Language
3854304	Bug for: isValid() inconsistent handling of NULL for integer	Language
3861371	Start time and endTime in cfloop prints 12.00 AM always	Language
3861391	CFClient support for arraysort() as member funtion	Language
3909694	The function getHttpRequestData() fails when form posted with encType="application/octet-stream"	Language
3926197	"includeEmptyValues" of listRest() when passed with a list containing a single element is not returning an empty string which is the expected behaviour.	Language
3846187	[ANeff] Bug for: writeLog/cflog does not log application name when called within onApplicationEnd()	Logging
3401939	[cfclient] refind - multiple line mode not supported from string in regular expressions in javascript like it is supported in java	Mobile Support
3731533	[Regression] : CFCLIENT: Date : diff: returns month difference as 1 when difference is less than a month	Mobile Support
3732088	CFCLIENT : String : Wrap : Functions gives unexpected output in one scenerio	Mobile Support
3737513	CFCLIENT: Functions: cJustify : second parameter when given decimal value is ceil	Mobile Support
3737514	CFCLIENT: Functions : Function ljustify, rjustify gives error when number is passed as a first argument	Mobile Support
3737517	CFCLIENT: datastructure: functions: ReFind : Using ReFind for	Mobile Support

Bug ID	Title	Product Area
	regex having groups gives unexpected output	
3738552	CFCLIENT: structure: copy : get copy of struct(having array as element) through StructCopy and modifying the array in the copied struct is reflecting the array of copy struct	Mobile Support
3738564	CFCLIENT: Data structure: structFindValue : structFindValue functions returns an array of struct, path value of this struct shows array index of 2 when it should be 3	Mobile Support
3738742	CFCLIENT: data structures: struct : structget : Using array inside the structget method does not create it	Mobile Support
3739355	CFCLIENT: dateFormat : format does not work when used without any delimited in between	Mobile Support
3740223	CFCLIENT: reReplace : function does not work as expected	Mobile Support
3859184	[Regression] Series of cfm references in cfclient code does not get converted to "html" during packaging, single reference does	Mobile Support
3859257	[Regression] File reference with cfm extension in cfclient device file APIs do not work for packaged application	Mobile Support
3043375	Bug 86368:(Watson Migration Closure)When doing a chttp POST with a ~ (tilde) in the URL, the ~ always gets URLENCODED	Net Protocols
3369472	CFMAIL Keep sessions alive	Net Protocols
3673298	Cfftp action putfile failing after processing for secure FTP server	Net Protocols
3847737	[ANeff] Bug for: cfimap action=getall removes brackets from attachment names	Net Protocols
3041790	Bug 83620:(Watson Migration Closure)In ORMExecuteQuery() method when you pass the queryOption argument, the unique argument is ignored	ORM Support
3044064	Bug 87138:-(Watson Migration Closure) IsValid("url", ...) and IsValid("email", ...) do not correctly validate values that use IPv6-based addresses	Platform Support

Bug ID	Title	Product Area
3858866	Rendering report using cfreport throws MalformedReportException on Mac platform	Reporting
3858955	[ANeff] Bug for: REST CFC function names must be 3+ characters	REST Services
3151872	exception.log not updated when eventhandler="" attribute is specified and task throws exception	Scheduler
3854891	SerializeJSON on a Java object causes service restart	Serialization
3702938	ColdFusion instances not showing up in Windows Performance Monitor	Server Monitoring
3824890	CFSEARCH tag ignores contextBytes parameter	Text Search
3534348	Typographical errors in \$cfroot/cfusion/bin/cf-init.sh	Web Container (Tomcat)
3853535	cfcontent sends corrupt binary data when query string is present with CF11s isapi_redirect.dll	Web Container (Tomcat)
3910257	Instances in a cluster do not start after updating to 11.0.3	Web Container (Tomcat)
3695114	AXIS Version 1 WSDL Generation Very Slow using JRE 1.7	Web Services
3832635	WSDL auto-generation seems in-correct	Web Services
3836992	WebService display name is already used	Web Services

The fix for following bugs have been reverted from this build: [3698462](#), [3043160](#), [3853569](#)
