

COLDFUSION 2016 UPDATE 3

ISSUES FIXED

Bug ID	Title	Product Area
<u>4071326</u>	First time after editing system probe, it displays "there was a problem running the probe" when the probe is run. After that it displays the appropriate message.	Administrator
<u>4101905</u>	[ANeff] Bug for: Code Analyzer doesn't notify about cflocation's addtoken default value change	Administrator
<u>4103616</u>	Viewing Undelivered Mail in CF Administrator has lost the ability to select multiple messages	Administrator
<u>4106021</u>	[ANeff] Bug for: CF Admin still mentions iprestriction.properties	Administrator
<u>4114686</u>	[ANeff] Bug for: Updates page throws exception when session variables disabled	Administrator
<u>4116141</u>	[ANeff] Bug for: Secure Profile page misleading label for allowed SQL setting	Administrator
<u>4116747</u>	Client Variable purge time errors without warning	Administrator
<u>4141881</u>	Mail Server connection verification always failing	Administrator
<u>4164357</u>	Error invoking CFC /CFIDE/administrator/mail/undeliveredmail.cfc	Administrator
<u>3853569</u>	CFContent tag working differently in CF 11	AJAX
<u>4165704</u>	cflayoutarea>cflayout does not properly load source in IE11 (After CF2016 Update 2016.0.02.299200)	AJAX
<u>3946143</u>	Cache already exists error	Caching
<u>4169466</u>	Error with queryName.removeRows function when using CachedWithin parameter when creating query	Caching
<u>3971871</u>	java.lang.ClassCastException when looping over query and returning a structure in a try block	CFComponent
<u>4055832</u>	Integer and Float validation passes input commas	CFForm
<u>4170204</u>	'serverSideFormValidation = false' stops validation errors, but does not stop omission of fieldnames	CFForm
<u>3042899</u>	Bug 85252:[ANeff] ER for: imageResize/imageScaleToFit "blurFactor" "0"Currently, omitting the 4th parameter to imageResize/imageScaleToFit, and passing 0 for 4th parameter, does not return same result	CFIMAGE
<u>4095231</u>	NullPointerException shortly after application start when using cfimage action=captcha	CFIMAGE
<u>4158102</u>	cfimage write produces java null pointer exception error	CFIMAGE
<u>4176625</u>	Monitoring Service Error	ColdFusion Services
<u>3780066</u>	Specifying the server="" attribute within cfoject crashes and restarts the ColdFusion server x64 (server="remote" is not working with 64-bit CF)	COM/DCOM

<u>4099820</u>	WeakHashMap in coldfusion.runtime.java.ReflectionCache.java in cfusion.jar is not thread safe and can cause infinite loops	Core Runtime
<u>4163793</u>	Missing Template not being honoured on WildFly 8	Core Runtime
<u>4173282</u>	Trusted cache does not eliminate all file io checking	Core Runtime
<u>4173657</u>	setDomainCookies causes NullPointerException on domain change	Core Runtime
<u>3998005</u>	CFQuery's recordCount is not reliable for SQL Server datasources	Database
<u>4170628</u>	[ANeff] Bug for: cachedWithin=0 returns cached query	Database
<u>4173565</u>	cachedafter	Database
<u>4176225</u>	Attribute validation error for tag cfloop.	Database
<u>4110576</u>	CFDUMP and writeDump() fail when hiding struct elements via "hide" attribute/argument	Debugging
<u>4166924</u>	CFDUMP is missing CSS / JS code and makes cfdump output difficult or impossible to read	Debugging
<u>3931678</u>	[ANeff] ER for:	Document Management
<u>3963656</u>	spreadsheetWrite autosize Only On Active Sheet	Document Management
<u>4088687</u>	[ANeff] Bug for: empty img src throws cfdocument timeout	Document Management
<u>4125142</u>	CFHTMLTOPDF	Document Management
<u>4139060</u>	SpreadsheetAddRow applies strange time format to time values added to a spreadsheet	Document Management
<u>4152515</u>	[ANeff] Bug for: cfspreadsheet throws ArrayIndexOutOfBoundsException if quoted CSV value does not contain comma	Document Management
<u>4159299</u>	[ANeff] Bug for: spreadsheet.formatCellRange() documented but not implemented	Document Management
<u>4159346</u>	[ANeff] ER for: spreadsheet.getColumnCount() sheet parameter optional	Document Management
<u>4165319</u>	cfspreadsheet on read alters cell data - auto trims the data	Document Management
<u>4167755</u>	cfpdf action="thumbnail" throws PDFDocException	Document Management
<u>4168921</u>	CFPDF read/getInfo is not showing custom properties properly	Document Management
<u>4170889</u>	Unable to open Sanitized PDF using acrobat reader	Document Management
<u>4170890</u>	Imported metadata file xmp is not setting the values to the new PDF	Document Management
<u>4143367</u>	[regression] : fileMove() does not throw exception when move is incomplete	File Management

4108519	Trying to load an ORM enabled entity with relations into a flex client results in error	Flex/Flash
4152876	WDDX crashes on XML from DB	Functions
4165524	Datetime functions return incorrect / inconsistent results	Functions
4183487	Require a separate function to differentiate between datetime Object and datetime String.	Functions
4185529	StructToSorted() has "Function return type for ArraySort is not valid." in the exception messages.	Functions
4155550	Coldfusion stopping but tomcat still up while starting with different non-root user in linux/unix environment	General Server
3850033	Unable to import large CF9 settings (~1500 data sources)	Installation/Config
4097008	[ANeff] Bug for: CGI.HTTP_URL returns [empty string] on IIS when default doc omitted	Installation/Config
4110224	Using datasource.cfc to create data source	Installation/Config
4179746	CF2016 not detecting CF9 for migration	Installation/Config
3037465	Bug 75364:(Watson Migration Closure)ER for: Adding 'ignoreUndefined="" attribute to arraySum()	Language
3924581	[ANeff] Bug for: isValid("url") incorrect results	Language
3954490	Error handling implicit array in combination with ternary operator in	Language
3988223	Implicit array within function call and other requirements produces java.lang.ClassCastException	Language
4043038	cookies assigned with a NULL value are not recognized	Language
4087863	structFindKey() with scope 'all' returns invalid variable name	Language
4104246	[ANeff] Bug for: isObject(image) and isObject(spreadsheet) and isObject(file) return YES	Language
4113069	DateTimeFormat not honoring escape characters per wiki documentation	Language
4126386	[ANeff] Bug for: ordered struct disallows quoted keys	Language
4126522	We don't need both ordered and sorted structs	Language
4126525	Struct elements lost when sorting	Language
4126527	Sorted struct callback needs to receive the value as well as the key	Language
4129246	ParseDateTime() ignores DST and converts time to standard time	Language
4129321	Array member functions broken for results of getMetaData(this)	Language
4160466	CFLOOP with scoped variable name in 'index' attribut crashes with "Incompatible object argument error"	Language
4160540	CFThread using name="x" kills thread scope	Language
4163932	DateDiff with a datepart of "w" (Weekdays) gives the number of weeks between two dates instead of Weekdays	Language
4164200	replaceList/replaceListNoCase delimiters causing trouble when subset of regex	Language

4167883	Introduce queryGetResult() for the corresponding member function, query.getResult()	Language
4168114	cfscript cfmodule runs start tag / end tag when no { } after it	Language
4179264	isPDFObject returns varied results depending on whether the PDF was read from a file or generated in memory	Language
4183886	[regression] onError() not called from onSessionEnd() if there is an exception thrown in onSessionEnd	Language
4137968	Using MORE than one block does not work	Mobile Support
4149198	Body Ignored in HTTP PUT/PATCH (and DELETE)	Net Protocols
4152543	[ANeff] Bug for: cfhttp throws "Incorrect number of columns in row" if quoted CSV value contains newline	Net Protocols
4166939	CFMAIL - Attachments not appearing in Apple IOS Mail App when cfmailparam has both inline and attachment content	Net Protocols
4172645	Using hyphens in cfftp connection name causes unexpected results	Net Protocols
4173670	deserializeJSON() invokes java.lang.System.getProperty() which is slow with sandbox security enabled	Performance
4160482	CFHEADER does not work inside a webservice	REST Services
4163450	Rest service converts "Yes" "No" string to "True" "False"	REST Services
4164063	OnMissing template not used in REST	REST Services
3194042	inconsistent_use_of underscores_in cfschedule's result_fields_and attribute_values	Scheduler
4086307	Coldfusion fills up its scheduler and exception logs with invalid "Task Invokehandler could not be chained" error message	Scheduler
4103663	[ANeff] Bug for: cfschedule's requesttimeout is not deprecated	Scheduler
4155265	SQLi not flagged for variables in else-if and else block.	Security Analyzer
4155280	The data type of argument, in the tag needs to be validated while flagging vulnerability.	Security Analyzer
4161177	While flagging certain functions that return strings, it should be flagged as error instead of warning.	Security Analyzer
4136028	serializeJSON() doesn't escape control characters	Serialization
4158658	[ANeff] Bug for: CF11+ broke deserialization of WDDX'd timestamp query columns	Serialization
4158660	[ANeff] Bug for: incorrect deserialization of WDDX'd bit column	Serialization
4172952	[ANeff] Bug for: CF11 vs CF2016 - cfwddx now throws StackOverflow when using extends	Serialization
3785874	CategoryTree not working in ColdFusion 10	Text Search
3935967	Suggestions with Solr on CF10 Does Not Return Keywords/KeywordScore	Text Search
4165678	Sequential cfindex operations may report a wrong status	Text Search

<u>4147038</u>	websocket js invoke() function can invoke an older cached or deleted CFC	Web Socket
<u>4154216</u>	Web Socket Frame Size Error in Google Chrome and IE	Web Socket
<u>4176297</u>	calling wsPublish in a cfc method makes the request scope cleared when finalising page at onRequestEnd	Web Socket
<u>4181270</u>	Websocket Proxy in infinite loop	Web Socket
